

LABORATORY FURNITURE

CONCEPTUAL DESIGN

Our Lasec® furniture design team will create a conceptual design for your laboratory area.

- ✓ A custom furniture layout for your workspace
- ✓ Workflow optimization
- ✓ Guidance on instrumentation placement
- ✓ 3D render of laboratory layout
- ✓ Various colours of worksurfaces, frames and cupboards available

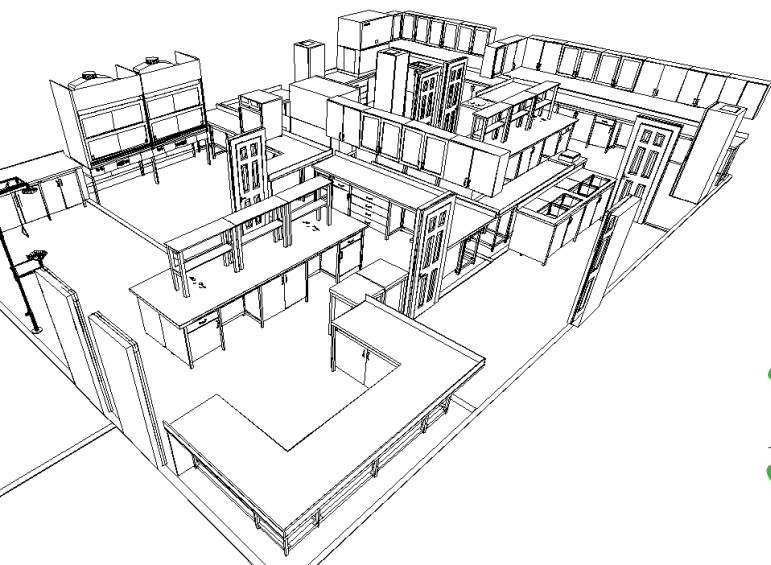

FURNITURE SUPPLY

Lasec® supplies laboratory furniture and fittings that are designed and manufactured for the laboratory environment.

- ✓ Chemically resistant worksurfaces
- ✓ Specialised laboratory taps, gas and waste fittings
- ✓ Additional safety features and accessories
- ✓ Delivery and Installation

Our dedicated logistics team will arrange that your furniture is shipped and delivered to your premises, ready for installation and oversight by a Lasec® project manager accompanied by a team of furniture fitment specialists.

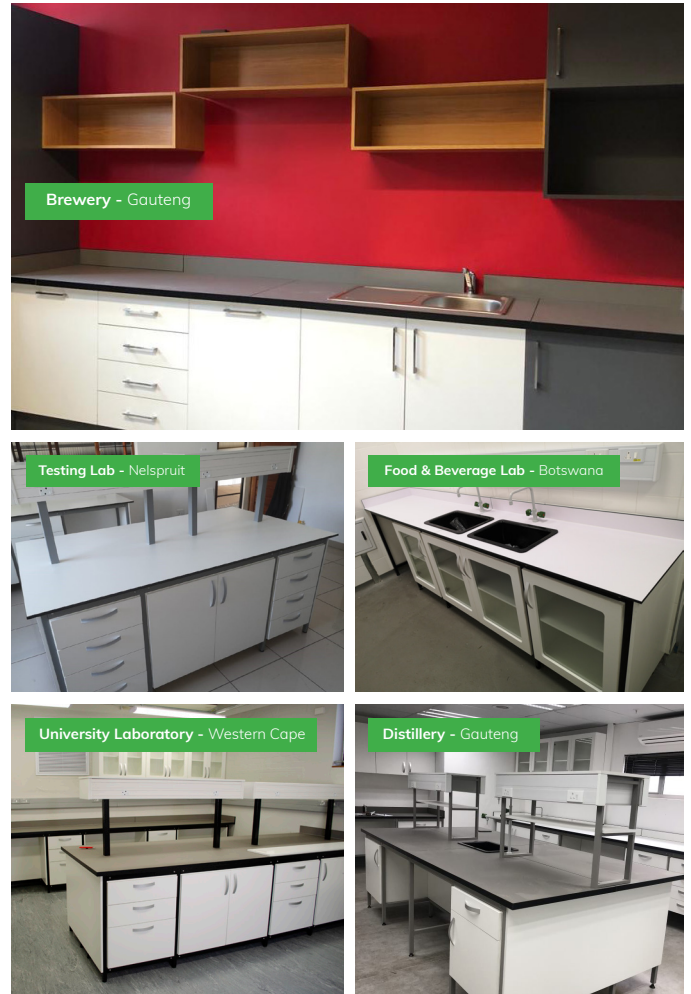

E&OE

FENIX NTM®

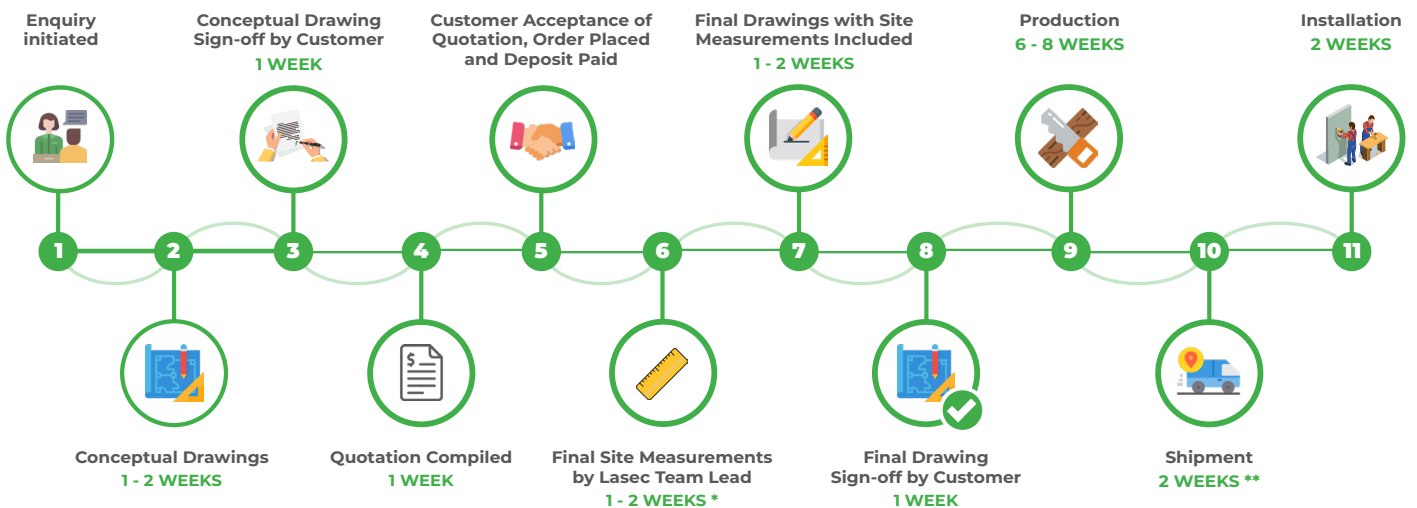

Lasec® incorporates **FENIX NTM™** as an innovative material that stands out for specific features.

High resistance to acid solvents and chemicals	Resistant to dry heat	Resistance to impact	Enhanced anti-bacterial properties	Resistance to scratches and abrasion
Dimensional stability even at high temperature changes	Hygienic	Suitable for contact with food	Mold resistant	Hydro-repellent
Easy to clean	Thermal healing of microscratches	Antistatic	Anti-fingerprint	Resistant to friction
Soft touch	Self-supporting (only in 10 and 12mm)	Low light reflectivity, extremely matt surface	Light fastness	Excellent intensity and colour depth
