### PACKAGING CONTROL

AT2E makes packaging, bottle & canning test equipment for the Beverage, Food, Pharmaceutical, Cosmetics, Chemical and Laboratory industries. The range includes products to perform torque tests, leak tests, dimensional measurement, CO<sub>2</sub> measurement, burst tests, top load tests and more.

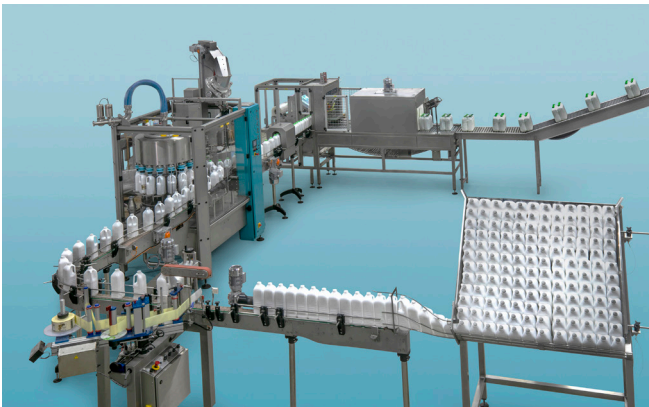

## CHECKWEIGHERS & METAL DETECTORS

RADWAG checkweighers are intended to be incorporated into production lines mainly in pharmaceutical, cosmetic and food industries. They ensure complete automation of production process control, eliminate over- or under-filling and allow for complete control of product packaging of pre-packaged goods. Collection of data is done in accordance with regulations and can provide a full audit trail.

## INDUSTRIAL SCALES

Among the numerous solutions, there are 1-load-cell and 4-load-cell platform scales, pallet scales, ramp, pit and beam scales made of powder coated, stainless or acid-resistant steel. Our professional high-resolution scales provide the highest accuracy of measurement while withstanding harsh industry conditions. Advanced software enables carrying out basic or more complex processes tailored to the specific needs of the plant.

## FILLING EQUIPMENT

Filkraft is a dynamic company specializing in Turnkey filling and packaging solutions for the Beverage and Dairy industry. All of Filkraft's solutions adhere to the EHEDG (European Hygienic Engineering and Design Group) standards.

## INDUSTRIAL HYGIENE

Elpress is the leading manufacturer in the field of industrial hygiene for meat, food and dairy producers. Elpress delivers total solutions: customer-focused cleaning systems, professionally integrated into your business process.

## INDUSTRIAL CHILLERS

Developed with energy efficiency in mind, the new LAUDA Ultracool circulation chillers make a pivotal contribution to reducing your operating costs. With the innovative operating concept, the LAUDA Ultracool circulation chillers can be conveniently monitored and controlled from a distance - via a connected remote control or the integrated web server.

## LAUDA

**Fabtech®**  
Technologies International Ltd

## PHARMA PRODUCTION PLANTS

Fabtech's inspired engineering, ingenious technology and problem-solving approach makes their products a perfect solution for any company looking to build or expand their pharmaceutical capability.

**LabVantage®**

## LIMS SYSTEMS

LabVantage Solutions is a company of experts dedicated to innovating, building, deploying, and servicing laboratory information management systems that meet your unique needs. They have intuitive LIMS software solutions for both entry-level and advanced requirements.

## DRINKING WATER PLANT TESTING

Lovibond® Tintometer is a leading supplier of water analysis equipment to the leisure, environmental and industrial sectors for the precise determination of different types & quality of water: from drinking, waste, ground water and effluents, through to cooling and boiler water. Their range of photometers, comparators and test kits combine with the stability and quality of Lovibond® reagents to enable rapid, accurate measurements of parameters from A - Z (Acidity to Zinc).
