

**WE ARE AN ESSENTIAL SERVICE PROVIDER AND OUR TECHNICAL TEAM IS HERE TO ASSIST WITH ALL ESSENTIAL SERVICES, VALIDATIONS AND CALIBRATIONS.**

### ISO 17025 SANAS CALIBRATIONS

**Mass:** For Micro balances and scales up to 30kg

**Volume:** For all your Micropipette calibrations

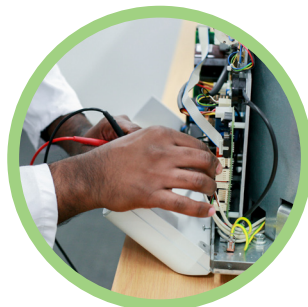

**Temperature:** Freezers, Fridges, Autoclaves, Waterbaths, Incubators, Furnaces and Ovens

### BIOSAFETY - NSF49

How confident are you that your biosafety cabinet is working correctly to protect you from potentially harmful pathogens? Peace of mind is possible if you are confident the biosafety cabinet field certifier you use to validate your cabinets is on top of their game.

Lasec® boasts with **three biosafety service engineers accredited with NSF 49, Class II Biosafety Cabinet Field Certifier Accreditation.**

### REPAIRS

We have a **strict policy** of only utilizing **spare parts from the original manufacturer** for all repairs.

### PREVENTATIVE MAINTENANCE & SERVICE PLANS

Contact Lasec® for a tailor-made **Maintenance and Service plan.**

#### Benefits of having a plan in place:

- Ensures optimal equipment performance to manufacturer's specifications
- Significantly reduces downtime
- Regular preventative maintenance can avoid costly repairs

**\* After-sales support is a vital part of our business philosophy to achieve overall customer satisfaction and complements our aim to become your total laboratory solution provider.**
