

ChemiDoc™ Go

Introducing our **new compact, user-friendly imager** which sits conveniently on your lab bench, facilitating **rapid image acquisition**.

Benefit from **exceptional chemiluminescence sensitivity** and the option to conduct **fluorescent western blotting** using affordable yet highly sensitive **StarBright™ fluorescent antibodies** and **stain-free imaging technology** for total **protein normalisation**.

- Convenient chemiluminescent and fluorescent detection options with gel documentation
- Sensitive chemiluminescence capability with broad dynamic range
- Multiplexed fluorescence capability with Bio-Rad's **StarBright™** 520 and 700 dyes
- Application-specific smart trays that automatically adjust settings

ChemiDoc Go BR.io Cloud Connectivity:

Enables automatic export of acquired images to the cloud with free data storage, allowing access and analysis from any computer via Image Lab Desktop.

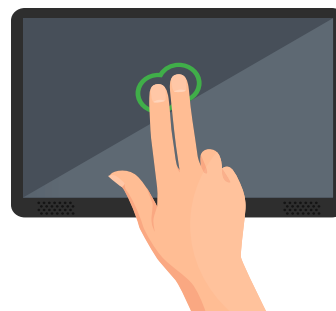

Image Lab Touch Software:

Quickly set up the ChemiDoc™ Go Imaging System, capture your image, add notes, and export or print your files.
