

Aquatic Housing Solutions

Iwaki Aquatic provides quality aquatic research systems that are extremely reliable and easy to both use and maintain. Their standard aquatic rack systems are designed specifically for the African Clawed Frog *Xenopus* spp. and Zebrafish *Danio rerio*, but they have experience in design and custom-building systems for over 150 different aquatic organisms.

- Innovative tank design
- Four, five, and six shelf single- or double-sided options available
- Dual-speed recirculating pumps for constant flow to the fish tanks
- Pumps are quiet and produce minimal vibration
- Low maintenance filtration system with oversized moving bed biofilter

- Aquatic controller: Monitors and controls many parameters such as Water Level, pH, Conductivity, Temperature, Pressure, Flow, Total Dissolved Gas Pressure (TDGP) and much more
- Remote system control and assistance via any internet-ready device with cloud software
- Email or sms text alerts sent when parameters are out of range
