

STRONG Women STRONGER FUTURES

Supporting cervical cancer screening from **sample collection** to **molecular diagnosis**. This **Women's Month**, we're highlighting the **importance of early detection** and the **diagnostic tools** that **help make it possible**.

A COMPLETE PORTFOLIO OF CERVICAL CANCER SCREENING SOLUTIONS

HPV SINGLE-USE SAMPLE COLLECTION KITS

Packed in a dedicated clean facility, Lasec® Kits meet ISO 13485:2016 requirements. Private Label Kits feature customised branding and workflow-specific instructions for a premium user experience.

Safe. Simple. Reliable.
Designed for better access.

E7 ONCOPROTEIN RAPID TEST KIT

Rapid, non-invasive detection of the E7 oncoprotein - a key biomarker associated with high-risk HPV infections.

Enhanced Sensitivity.
Rapid Results. Peace of Mind.

DNA PURIFICATION KITS

A range of purification kits are available to meet any molecular need. Rapid preparation of high-quality DNA can be achieved from almost any starting material and be used for any downstream application.

Pure. Reliable. Ready for any
molecular application.

REAL-TIME PCR INSTRUMENTS AND ASSAYS

Advanced real-time PCR solutions and assays for accurate HPV detection, genotyping and informed patient management.

Accurate. Sensitive.
Enabling informed decisions.

By enabling **earlier detection** and **supporting effective cervical screening programmes**, healthcare professionals can help **reduce the burden of cervical cancer** and **improve health outcomes for women** while **strengthening community health**.

**Prevent
Today,
Protect
Tomorrow.**
