

Is Your EHS System Putting You at Risk?

Connect Compliance,
Risk & Safety –
Intelligently.

One Incident Can Cost Millions. Are You Relying on Spreadsheets to Stop It?

The Hidden Gaps Impacting Compliance & Performance

Manual Reporting

→ Delayed Response

Siloed Data

→ Poor Root Cause Analysis

Compliance Gaps

→ Fines & Product Holds

Lack of Visibility

→ Repeat Incidents

Lab Managers

Complex workflows, slow reporting

Quality Teams

Audit exposure from missed CAPAs

EHS Teams

Paper-based tracking, reactive compliance

Business Leaders

- High penalties & fines,
- Supply chain disruptions
- Reputational risk exposure
- High insurance premiums

What if your EHS system was as smart as your operations?

It's not just about environment, health & safety.
It's about business continuity, compliance, and performance.

LabVantage gEHS delivers end-to-end value — connecting Safety, Compliance & Productivity in one powerful solution.

Benefits:

Real-Time Incident Reporting

Centralised CAPA Management

Dashboards & Analytics (track trends, reduce risks)

Automated Regulatory Reporting (OSHA, EPA, FDA-ready), proactive compliance

Seamless System Integration (LIMS, ERP, QMS, HRIS)

Reduced Insurance Premiums

Secure, 24/7 Cloud-Based Access

Quick to deploy. Easy to scale across global operations.

ROI driven impacts

80% faster incident response

60-70% fewer repeat incidents

\$2M-\$5M saved in avoided fines & downtime

Corporate & Social Responsibility (CSR) & Reputation Management

Why LabVantage?

LabVantage is a global leader in laboratory informatics, trusted by the world's top labs for over 40 years. Our configurable, scalable LIMS platform powers smarter, faster decisions across life sciences, pharma, food & bev, forensics, and more.

We bring deep domain expertise, industry-specific solutions, and a powerful informatics backbone that extends into EHS, helping organisations simplify compliance, reduce risk, and drive operational excellence.

Discover how LabVantage gEHS delivers smarter, safer operations.
